MARCEL

ASSEMBLY INSTRUCTIONS

* Cross position of the legs:

Otis and Elsa

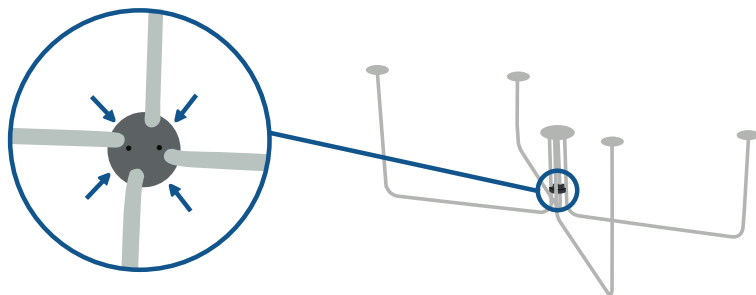

Flavio

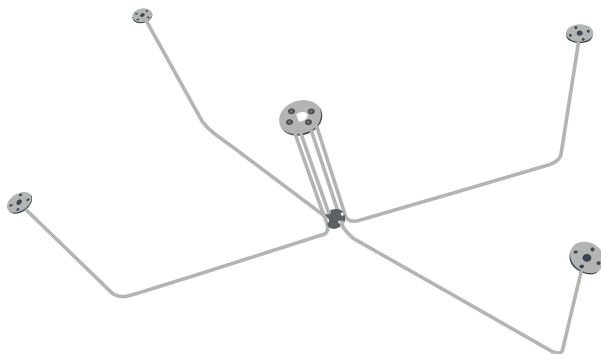

MARCEL ASSEMBLY INSTRUCTIONS

- 1 Put the legs fixing plate (A) with the set screws (C) downwards, and then push it down as much as possible without tightening the set screws.

- 2 Fix the top fixing plate (B) to the legs with an Allen key.

- 3 Then turn down the legs structure and place it on the table top (which must be upside down). Screw the top fixing plate (B), and then take each leg to its correct position (marked on the top) and screw it.

Finally, push the legs fixing plate (A) as much as possible (to the lower part of the legs) and tighten the set screws.
