

## CYLINDER White projector LED HE 36W 3000K 56° 4780 lm

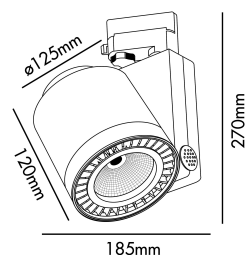

Ref. 010605601

CYLINDER is a track projector with a cylindrical structure and compact design. The projectors distribute light to where it is most needed, since they can be directed to emphasise certain elements or can distribute the light uniformly. Thanks to high-efficiency (HE) LED, a yield of 120lm/W to 140lm/W can be achieved, optimising the light emitted and achieving improved consumption. With a colour temperature of 3000K, this projector allows warm, comfortable atmospheres to be created. The 56° version is perfect for lighting in restaurants and hotels, and also in exhibition rooms or museums.
