Il Colonnato,
Dining table 280 x 140
Assembly instructions

kettal

Il Colonnato,
Dining table 280 x 140

Description

In this project, Mario Bellini
took his inspiration from a
basic elemental structure
in architecture. His design
emulated the colonnade
of classical architecture,
in which a sequence of
columns supports a portico,
in this case a table top.
The base is a visually closed
volume, despite being
materially open.
When seen from a different
viewpoint, perception
changes completely, as the
columns no longer overlap
and the space appears
empty.

Information

Cleaning Instructions
Use a soft damp cloth, with soap or neutral detergent.
Do not use alcohol or other solvents.

This symbol on the product or its packaging indicates that it must not be treated as household waste. It should, in fact, be handed in at a recognised collection point for recycling electrical and electronic equipment. For more detailed information about the recycling of this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.
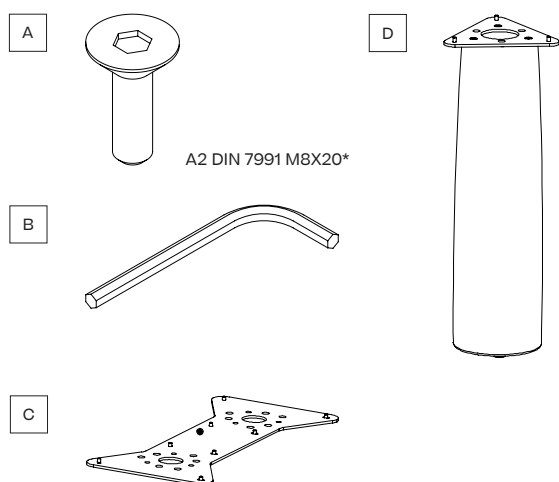

This product is suitable for indoor and outdoor.

Warning

It is not recommended to lift the table once the legs are fixed to the top. If you want to change the place of the table, it is advisable to completely disassemble it and install it in the new location, following the procedure described.

We do not recommend climbing on top of the table, as it can be damaged.
