

VISO

VISO's lighting design collections are based on a "Light is Life" philosophy: light inspires life into space. Light affects our perception of space through its warmth, colour, and dimension. Light transforms physical space, enhances the senses and creates strong emotional impact.

We create designs with a bold fusion of elements. Our lights are unique. Elements of simplicity and elegance deliver life into our lights. We offer a variety of products from floor and table lamps, ceiling suspensions, wall sconces, and on-demand lighting designs for custom projects.

Light is Life.

THE VISO STORY

Founded by Designer and CEO Filipe Lisboa, VISO creates unique and innovative decorative light fixtures, transforming interiors around the globe.

It is our mission, to provide unique character to interiors, and, to create special and intriguing atmospheres through the use of our light fixtures.

Proudly Canadian, VISO specializes in the design and manufacturing of contemporary decorative light fixtures to service the hospitality industry, such as office spaces, retail stores, open areas and more. Projects include new establishments, renovations, hotels, restaurants and public spaces. Depending on the project, VISO works with Architects, Interior Designers, Construction Groups, Purchasing Agents, and Electricians to choose the right product for the job. Products can vary from VISO standard catalogue items to custom lighting solutions designed by the internal design team.

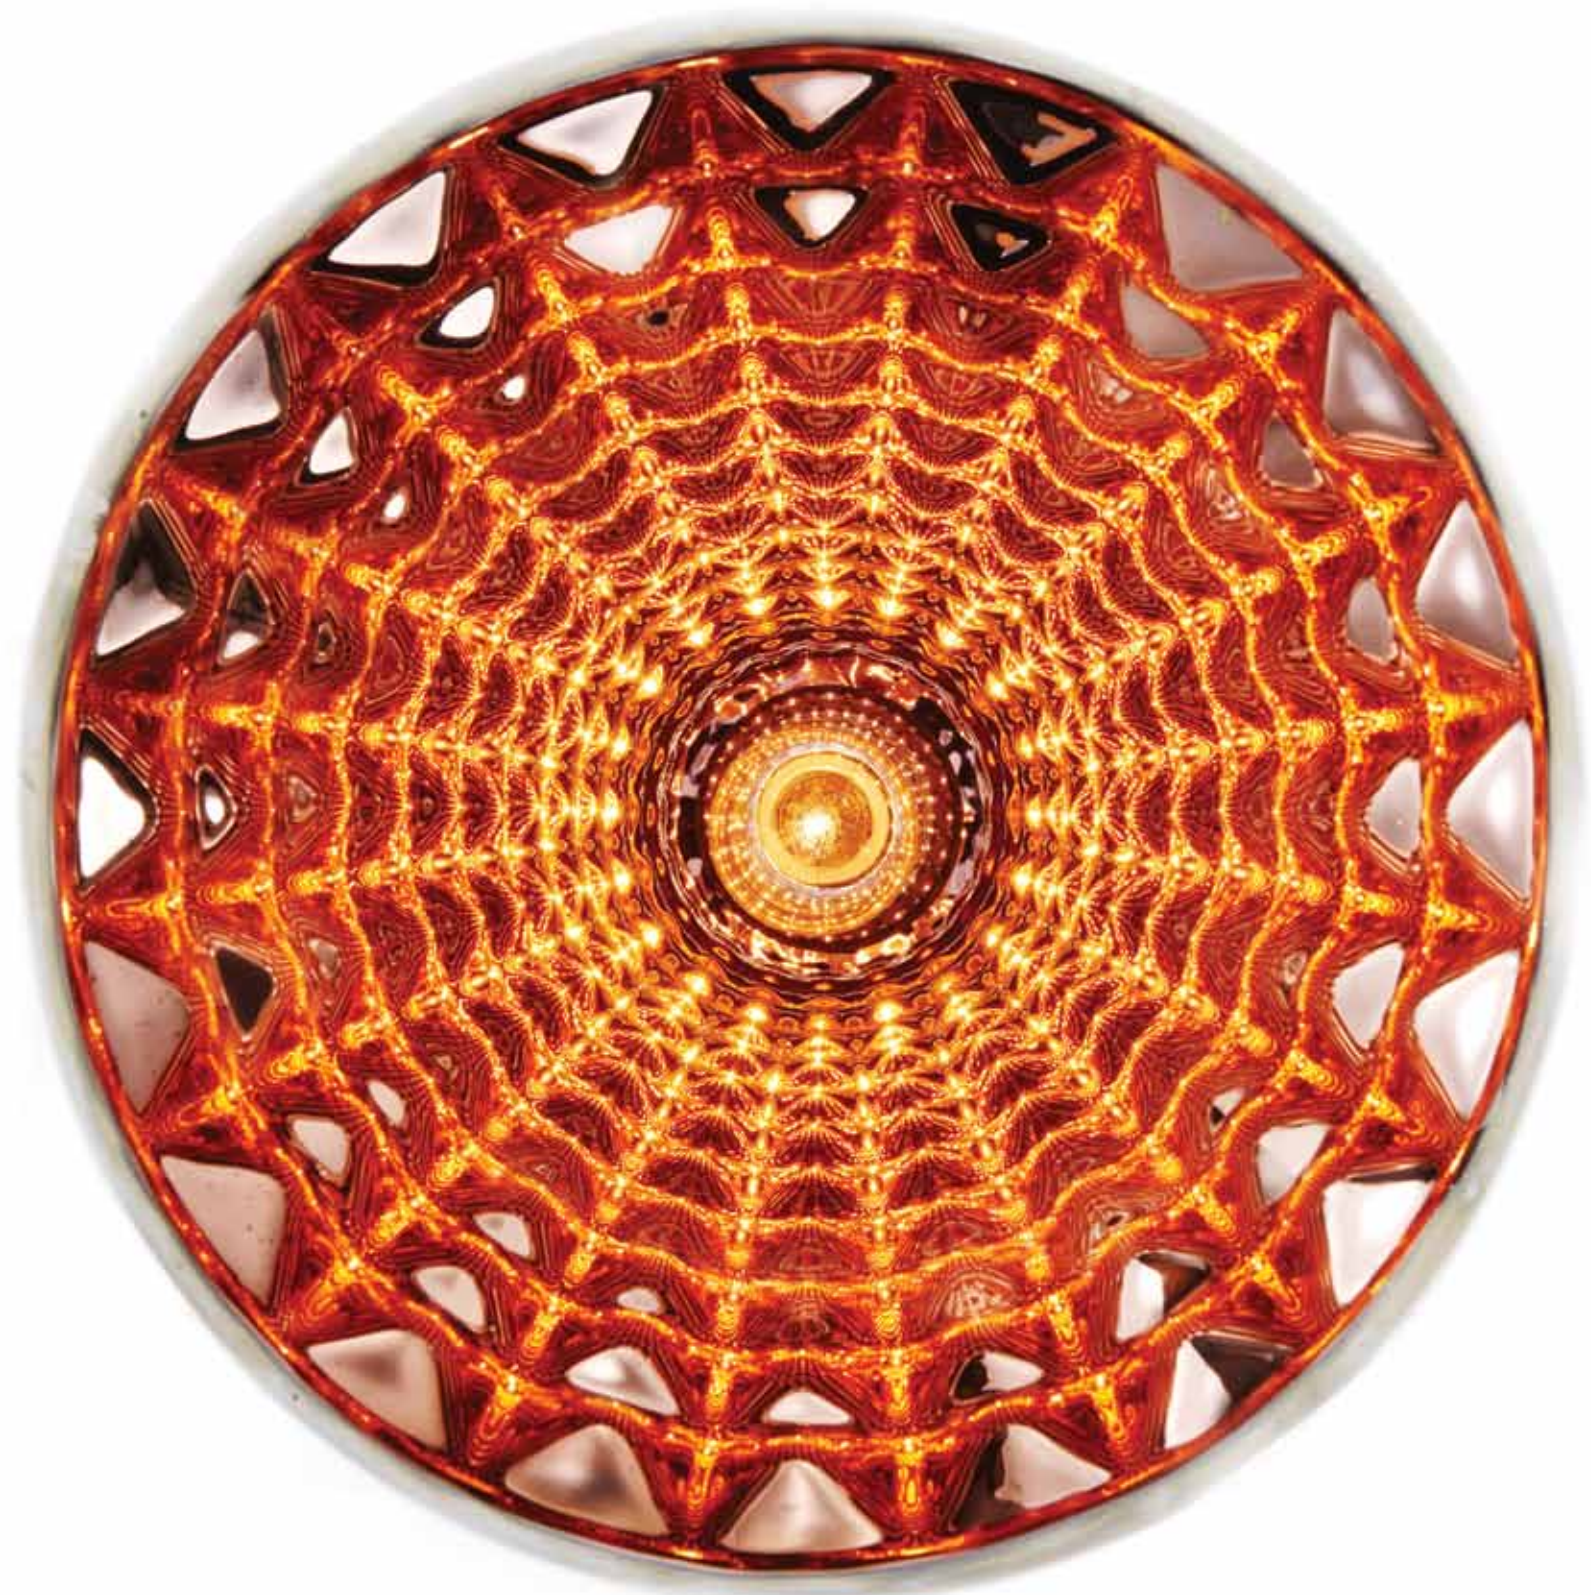

We have a passion for lighting design and we follow a client-focused approach. We understand that the exchange with our customers is paramount: understanding the needs of our clients is the critical starting point of our design process. Our team of lighting professionals is made up of both specialty in-house manufacturing, and other partner companies dedicated to provide premium workmanship and 100% customer satisfaction. The in-house team ensures continuity, and, our products, materials and processes conform to the highest industry standards, for consistent quality.

Throughout this book, you will find numerous images that showcase the standard collection and custom design pieces. We encourage you to take a look at the new FUNKII on page 7, followed by the H2O on page 9, the solid crystal CUBIE on page 21, and, among others the RUSKII and RUSKII Twist on page 63.

Our design and rendering services yield visuals that are closer to life than imagined. A sequence of Render examples begins on page 123, demonstrating standard and custom design products. Our skilled designers and their customer specific renderings offer you the opportunity to be just a little bit closer to the transformative power of VISO light.

VISO would like to give special thanks to our President Dylan Lyall for his continuous contribution to our growth and innovation.

Light is life.

PROJECTS

Expert design and manufacturing solutions

MEET THE VISO TEAM

We would be honoured to host you at our downtown Toronto facility, where you can have an experience with VISO first hand. Please let us know when you will be in town and we can arrange a meet and greet.

BEAUTY MEETS FUNCTION: VISO DESIGN

Our in-house specialists apply core design principles, VISO's unique technologies and sense of design to produce spectacular lighting solutions for our clients.

A GREATER EXPERIENCE

We continue to improve our process and enhance the VISO experience. From the initial concept to the final product, our in-house team works with you one-on-one to help your vision come to life. We believe you should be able to view renders and drawings for your project without extra cost.

Prior to manufacturing, we cover all elements of the project, and provide you with expert advice, and know-how to help shape your vision in the most fitting way. Choose from our proprietary designs, innovative technologies, and exciting materials to create truly unique lighting pieces. Our "light is life" philosophy is paramount to our promise: we transform your vision into a beautiful reality.

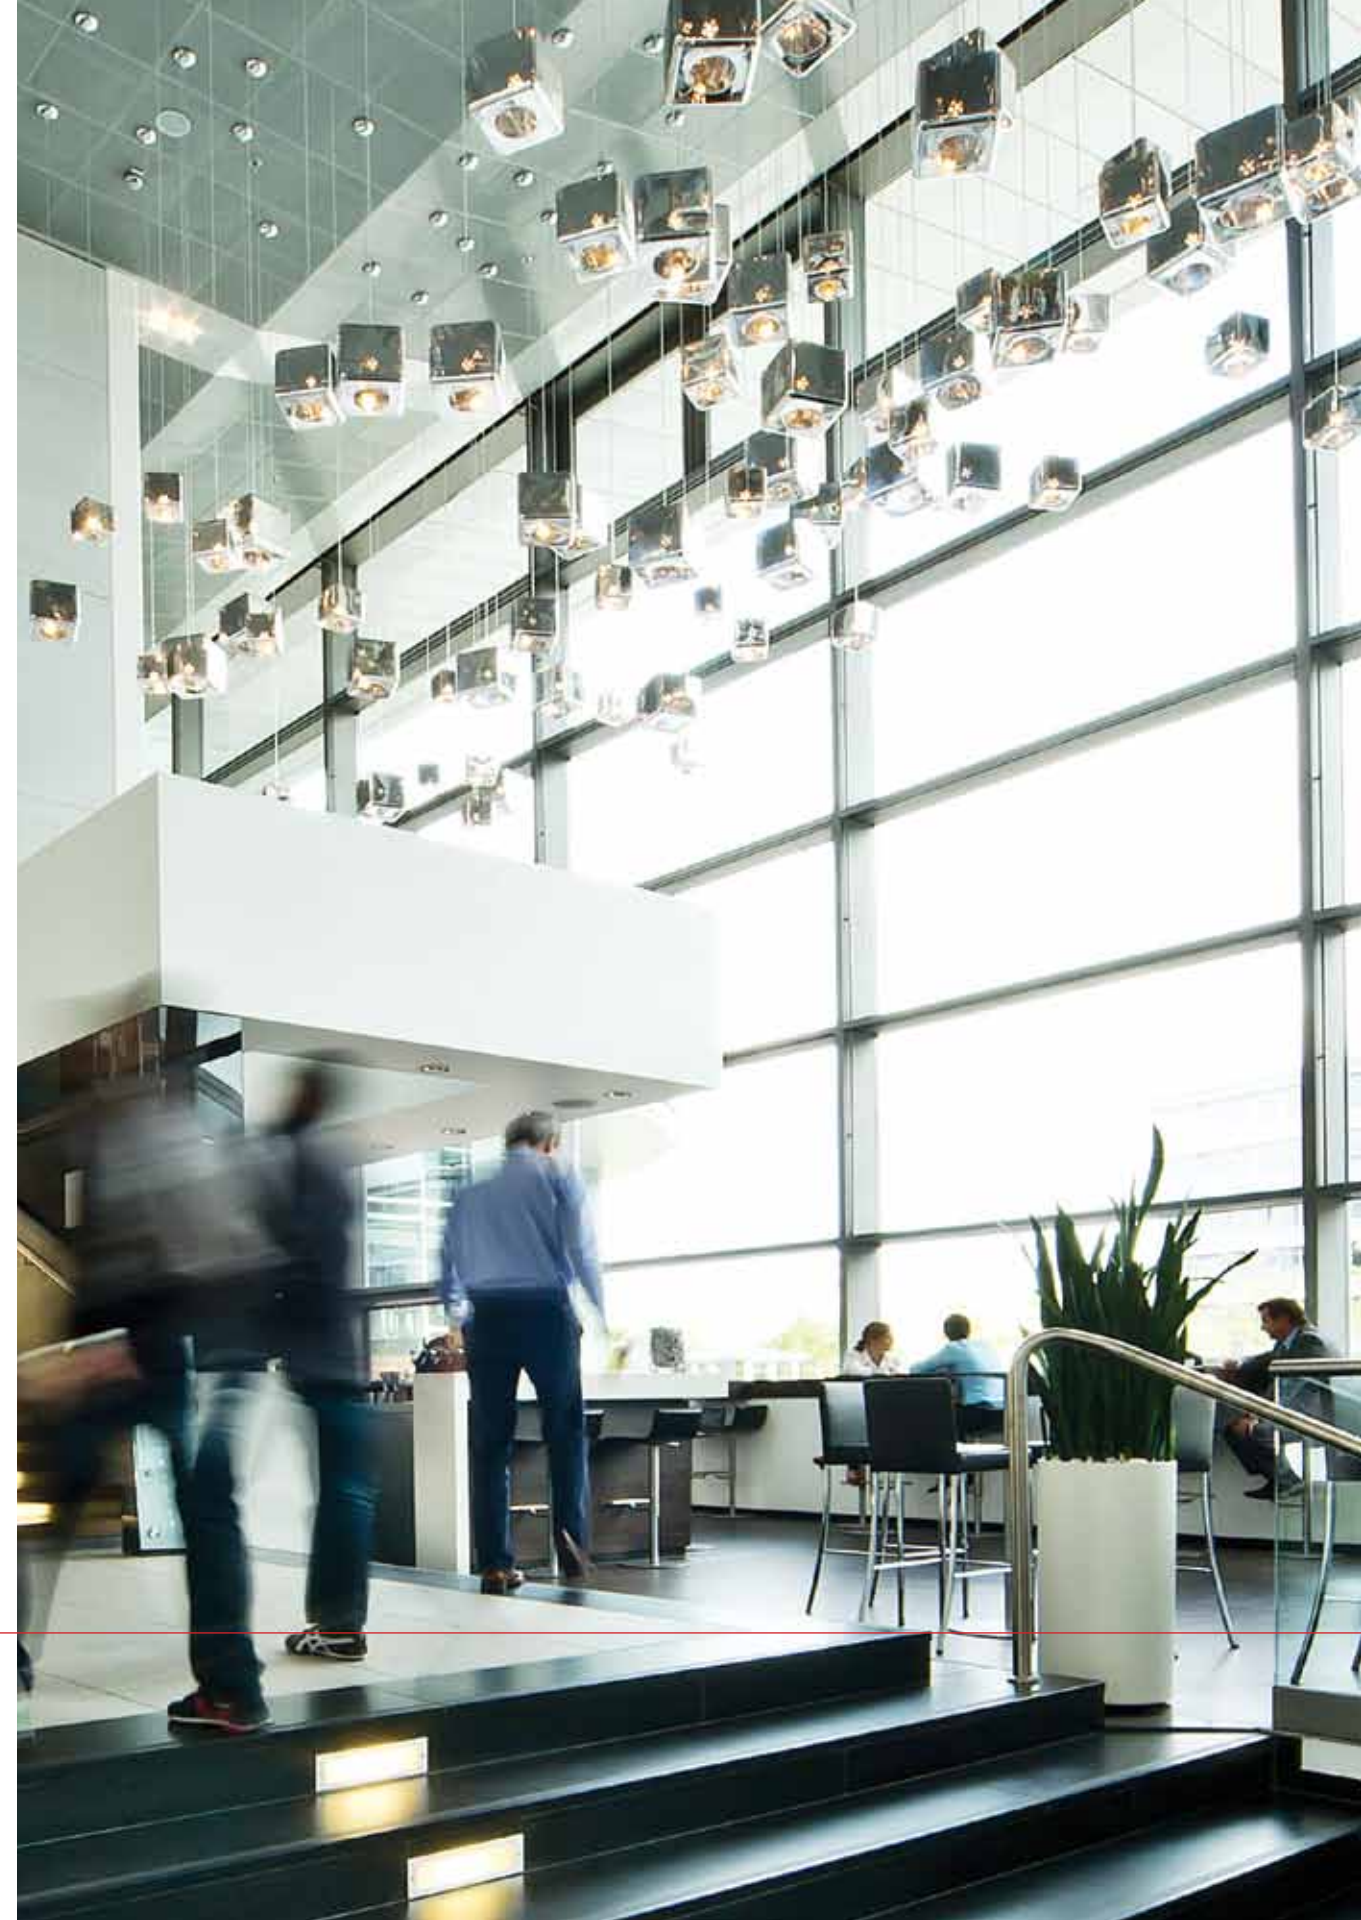

MANUFACTURING QUALITY

Our manufacturing facilities and partner divisions are equipped with the latest technology to ensure quality of design. We believe in excellence and the highest quality of products. This is why all the assembly, testing and quality assurance processes are completed at our location in Toronto, where we keep a close eye on the process, and ship only the best quality, luxury design light fixtures to our clients. In order to remain an industry leader in fulfilling standard orders in a timely manner, we keep a significant inventory on-hand at our facilities.

THE VISO APPROACH

Our collaborative approach promotes the consideration of all elements: industry, space, environment, atmosphere, objective, and most importantly, your vision. Your vision is at the core of our commitment to you. It fuels our efforts in gathering additional design components, both aesthetic and technical. Together we achieve solutions that bring extraordinary beauty to your space, every time.

Light is life.

RENDERINGS

"We are so pleased to have found VISO! We deal with demanding projects all the time, and they are always time sensitive. Not only is there a lot of work that goes into the projects, but the time frame in which the staff at VISO completes it, and the willingness to make all the changes that we request, is incredible. The design and production talent that VISO brings is unsurpassed."

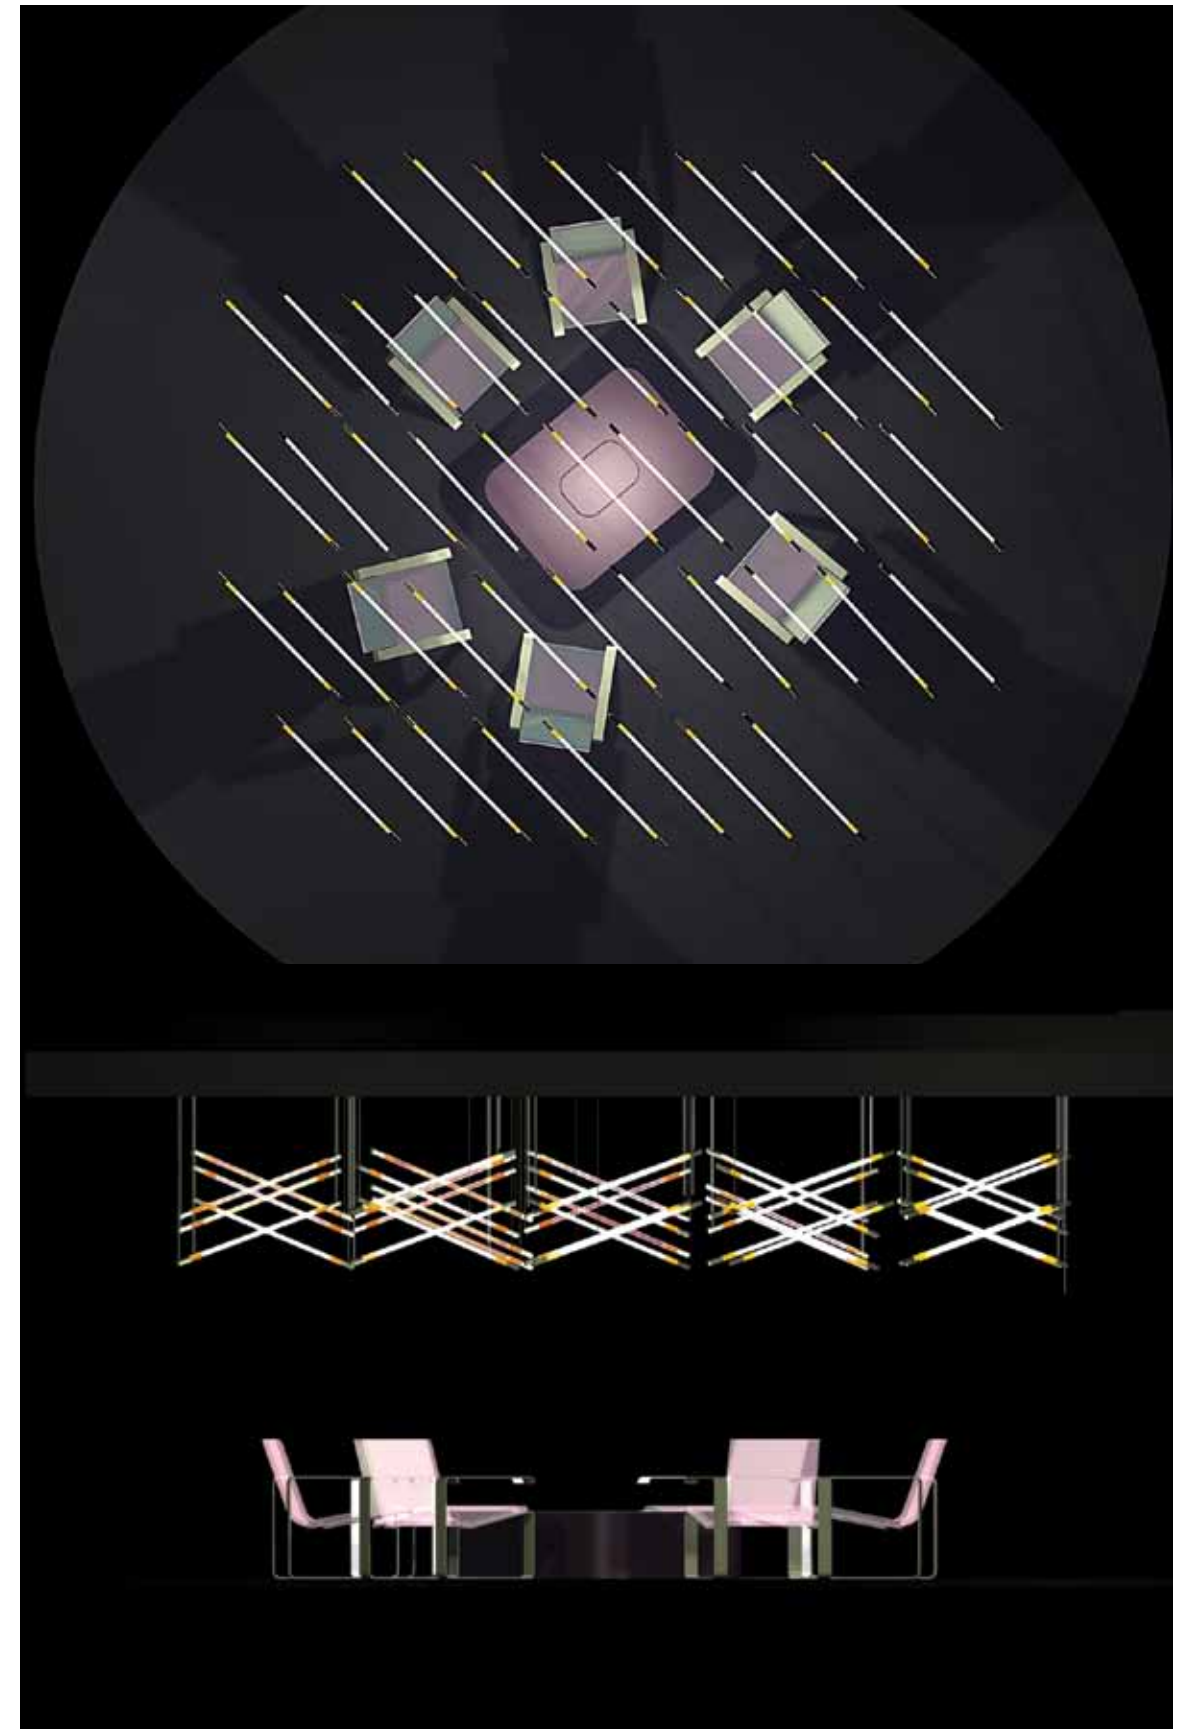

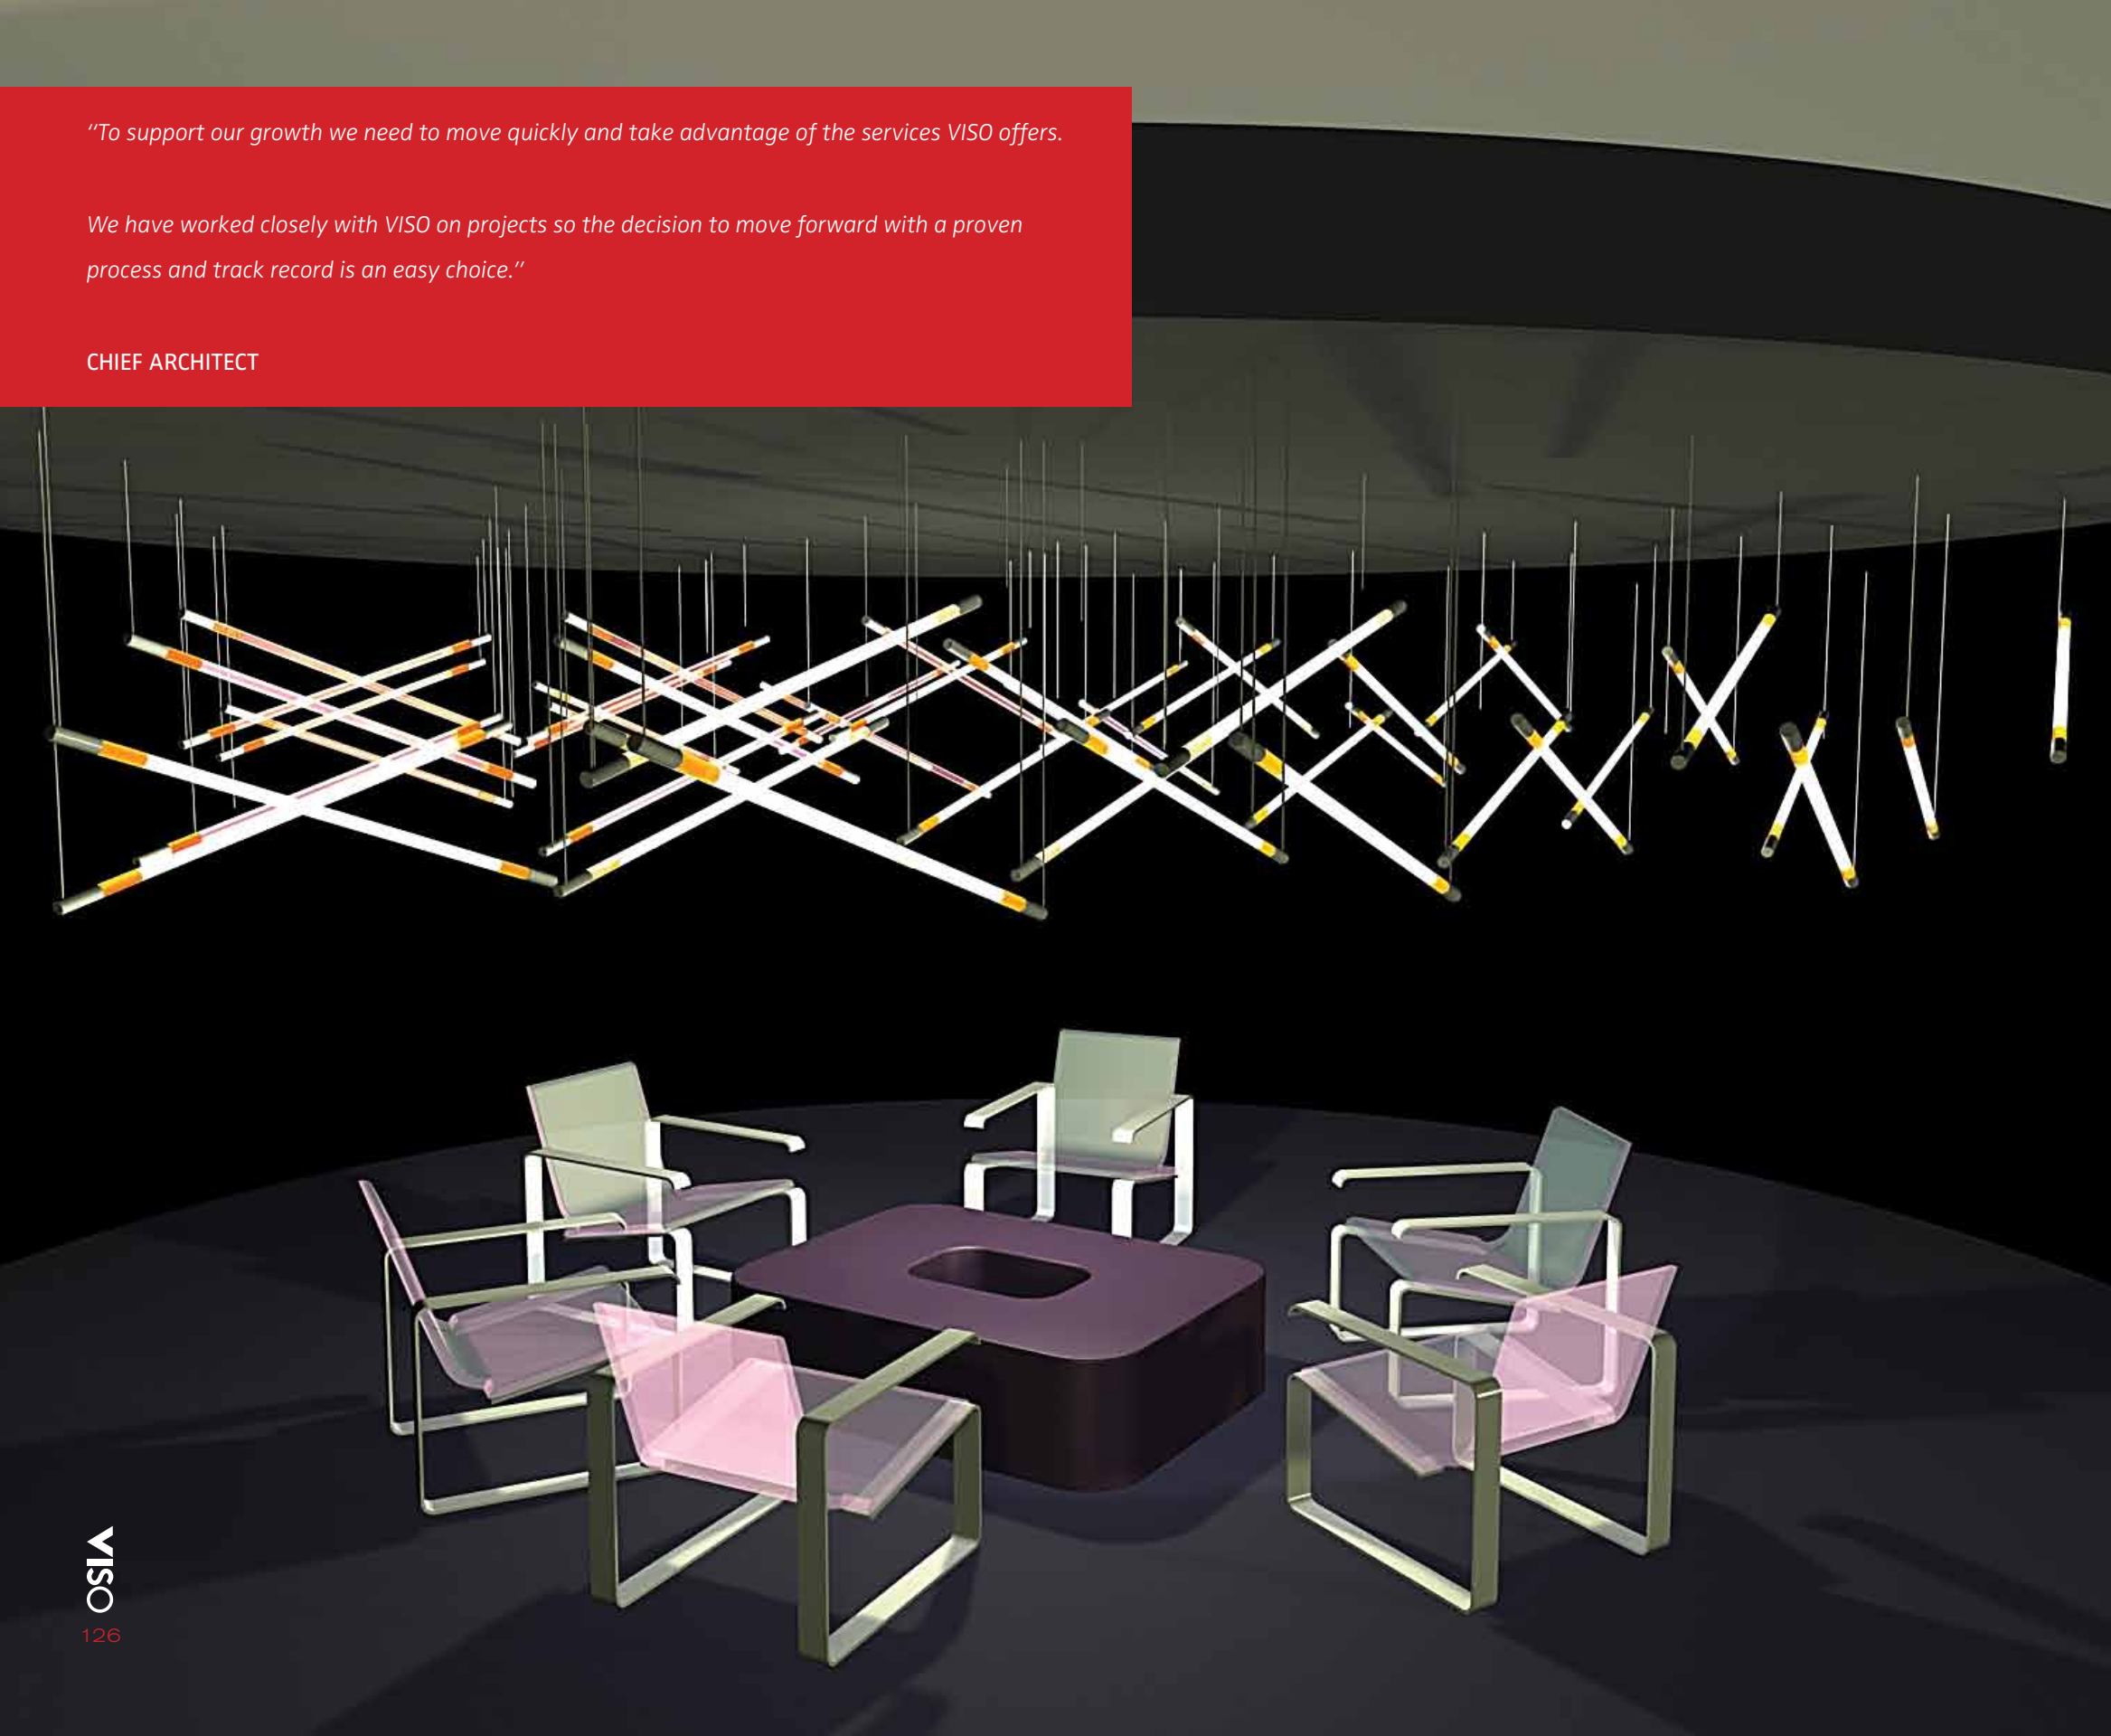

Moncur Design Associates Inc.

"To support our growth we need to move quickly and take advantage of the services VISO offers.

We have worked closely with VISO on projects so the decision to move forward with a proven process and track record is an easy choice."

All models bearing this symbol are Class I models. These light fittings have only basic isolation and therefore must be connected to the earthing system of the residential dwelling.

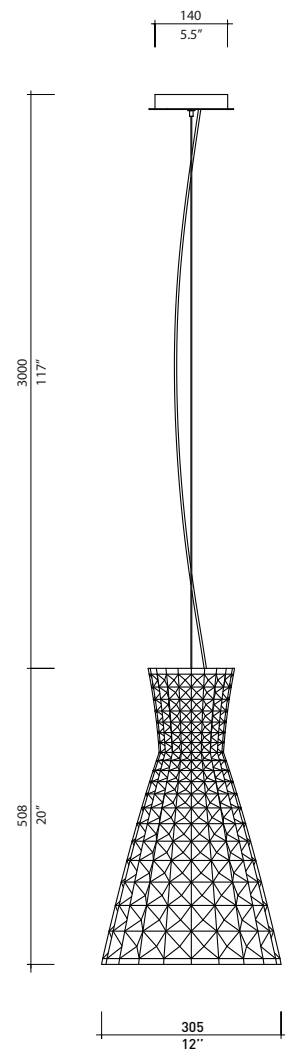

All products are manufactured according to safety standards of the European Union - EN - 60598

All products that bear this mark have been tested to one or more of the following standards: UL 1598, UL 8750, UL 153, CSA C22.2-250, CSA C22.2.-12, CSA C22.2-9 and recognized by SCC and OHSA.

The descriptions and the measurements of the apparatus contained in this catalogue are for information purposes only, and can therefore be changed in order to improve their specifications or design. The company reserves the right to eliminate or modify any model without prior warning.

To keep the lamps in good condition, do not use more powerful bulbs than those recommended and use a dry cloth to clean them. Do not use metal cleaners, as they will damage the protective varnish that guarantees a long-lasting finish.
